EIGHTEENTH CONGRESS

HOUSE BILL NO. 6178

Introduced by Honorable **MANUEL JOSE M. DALIPE**

EXPLANATORY NOTE

This bill seeks to establish the Mindanao Railways Corporation as a means of hastening the development of the island.

Mindanao, the second largest island in the Philippines, is incredibly rich in resources and economic opportunity. If further developed, the island could provide unparalleled growth for the country. According to the World Bank, in its report entitled, "Philippines Mindanao Jobs Report: A Strategy of Regional Development," unlocking Mindanao's potential is key to the country's overall economic progress. And progress cannot be achieved without infrastructure.

Improving and upgrading transportation infrastructure in Mindanao will help stimulate economic activity in all provinces in the island. Under the Duterte administration's "Build, Build, Build" program, the infrastructure masterplan for Mindanao includes the development of the Mindanao Railway System.

The Mindanao Railways Corporation, if created, will serve as a government instrumentality in providing railroad and transportation system for the whole island of Mindanao. The people from the South and traders from all over the land who have difficulties traveling and transporting their goods within and outside the island will be benefited. A railroad network crisscrossing Mindanao will considerably shorten the distance and/or travel of the people or the goods whose destination is the Visayas or Luzon, not to mention the opportunity to trade and transport huge volume of goods at the lowest cost.

In view of the foregoing, immediate approval of this measure is earnestly requested.
