The country’s road to effective recovery from COVID-19 and return to normalcy without fear require the realization of the following objectives: (1.) the development of an efficient and strong mechanism to prevent and control the outbreak, and (2.) the implementation of mechanisms that protect the collective interest of all Filipinos through various forms of assistance and reliefs.

The staggering effects of COVID-19 on human life and the economy that we are seeing are unlike anything that our generation has ever experienced. Globally, the unemployment figures projected by the International Labor Organization (ILO) is 25 million for Fiscal Year (FY) 2020 with loss of labor income amounting to as much as $3.4 Trillion. Meanwhile, the Philippine Institute of Development Studies (PIDS) estimates that the Philippines could suffer a 12.9% contraction of its economy.

However, the reactivation of disrupted economic activities and reemployment of displaced workforces cannot simply be done without the confidence and full trust of the public in the measures in place. It is for this very reason that this bill is designed to supplement Republic Act No. 11469, otherwise known as the “Bayanihan to Heal as One Act”, by aggressively pursuing its efforts to contain the transmission of COVID 19 and simultaneously making available various reliefs to all Filipinos as the economy starts to open up.

Among others, this bill proposes to undertake COVID-19 response and recovery interventions that follow the best practices and guidelines of the World Health Organization. This includes the testing of a percentage of the population that will be expedited by a streamlined accreditation of polymerase chain reaction (PCR) testing kits by public and designated private institutions.

Further, this measure proposes the appropriation of One Hundred Fifty Seven Billion Pesos (PhP 157,000,000,000.00) as standby fund for support operations and response measures to address COVID 19. This includes Twelve Billion Pesos (PhP
12,000,000,000.00) for the procurement of PCR testing and extraction kits for the enhancement of the capacities of the DOH. Other allocations are dedicated in support of socioeconomic reliefs such as Emergency Subsidy to Workers, Cash For Work Programs, Prevention and Control of Other Diseases, Capital Infusion to Government Banks, Support Programs for Impacted Sectors, Support to Agricultural Sector.

This proposal rides on the optimism and resiliency of the Filipino Spirit ensuring that every Filipino life is important.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
