AN ACT
GRANTING THE SOUTHERN LUZON STATE UNIVERSITY A FRANCHISE TO
CONSTRUCT, INSTALL, ESTABLISH, OPERATE AND MAINTAIN FOR EDUCATIONAL
AND NON-COMMERCIAL PURPOSES RADIO BROADCASTING STATION WITHIN THE
CAMPUSES OF SOUTHERN LUZON STATE UNIVERSITY

EXPLANATORY NOTE

Article II, Section 24 of the 1987 Philippine Constitution provides that “The State recognizes the vital role of communication and information in nation-building.” Article XVI, Section 10 also declares that “The State shall provide the policy environment for the full development of Filipino capability and the emergence of communication structures suitable to the needs and aspirations of the nation and the balanced flow of information into, out of, and across the country, in accordance with a policy that respects the freedom of speech and of the press.”

Indeed, communication and information are essential in facilitating the effective delivery of public services and sustaining the efficient functionalities of various groups and organizations in the society, and are thus, critical to national development, especially in times of crises or public emergencies.

The current COVID-19 pandemic has particularly affected the higher education institutions (HEIs) in the country, which made the Commission on Higher Education (CHED) to allow schools to adopt flexible learning options that reflect the best assessment of their students’ outcomes. This is particularly important in light of the UNESCO’s assessment of COVID-19 impact on education, which reveals that 3,589,484 students enrolled in various HEIs in the Philippines had been affected by the school closures caused by the pandemic. Overall, there are a total of 28,451,212 affected learners in the country based on the global monitoring of school closures caused by COVID-19.

According to an article, the COVID-19 is, for educators, a quintessential adaptive and transformative challenge, one for which there is no pre-configured playbook that can guide appropriate responses and where education leaders must swiftly design responses with specific contexts in mind as the pandemic runs its course.

Hence, in my capacity as Representative of the 4th District of Quezon and Member of the SLSU Board of Regents, I am supporting the University’s move to put into operation its FM station, which has been established as a training facility and laboratory of the BS Electronics and Communication

Engineering and BA Communication students, through this measure that seeks to grant the University a franchise to operate and maintain a radio station.

The franchise, will allow the SLSU to deliver its services to marginalized students who are living in areas without internet connectivity. The franchise to operate a radio station will be part of SLSU’s response to the need to device ways to deliver educational services amid the COVID-19 pandemic. It will likewise serve to broaden the University’s coverage and capacities as an effective instrument in information dissemination geared largely to promote community development and facilitate better public service.

In view of the foregoing, the approval of this bill is earnestly sought.
