EXPLANATORY NOTE

San Miguel Corporation is proposing to build a new airport in Bulakan, Bulacan in order to decongest the Ninoy Aquino International Airport (NAIA) given that in 2019, NAIA handled 39.5 million passengers despite its planned capacity of only 31 million. The planned airport will cover a total land area of 2,500 hectares which can accommodate six runways. It will have a total capacity of 100 million passengers annually when fully operational. Aside from decongesting NAIA, the construction of the new airport is consistent with the government’s thrust to boost infrastructure spending.

This bill seeks to create an economic zone and freeport around the premises of the new airport. The economic zone and freeport will provide alternative areas for investments outside of Metro Manila. It has the potential to boost economic activity in the area, provide more job opportunities to Bulakeños and the surrounding provinces and improve the economic condition of the province. It is consistent with the declared policy of the government to actively encourage, promote, induce and accelerate a sound and balanced industrial, economic and social development in the country especially in rural areas. Therefore, the establishment of the Bulacan Airport City Special Economic Zone and Freeport is recommended.
In view thereof, the immediate consideration and approval of this bill is earnestly requested.
