Republic of the Philippines
HOUSE OF REPRESENTATIVES

EIGHTEENTH CONGRESS
Second Regular Session

HOUSE BILL NO. 8275

Introduced by Representative VINCENT FRANCO D. FRASCO

EXPLANATORY NOTE

This bill seeks to upgrade the Provincial Hospital in the City of Danao, Province of Cebu
from a Level I Hospital into a Level II General Hospital to be known as the North Cebu Medical
Center (NCMC), to increase its bed capacity from fifty (50) beds to one hundred (100) beds,
upgrade its professional health care services and facilities, and authorize its medical personnel.

Section 11, Article XIII of the 1987 Constitution provides that the State shall adopt an
integrated and comprehensive approach to health development which shall endeavor to make
essential goods, health and other social services available to the people at affordable cost.

Relatedly, Article 25 of the Universal Declaration of Human Rights states that “Everyone
has the right to a standard of living adequate for the health and well-being of himself and of his
family, including food, clothing, housing and medical care and necessary social services, and the
right to security in the event of unemployment, sickness, disability, widowhood, old age or other
lack of livelihood in circumstances beyond his control.”

Currently, the 5th District of Cebu houses the Cebu Provincial Hospital – Danao City. It is
a Local Government Unit (LGU) – Government Level 1 Hospital, and under this bracket level,
such cases referred to this facility do not require intensive care units (ICUs), and cater to patients
who need minor care and supervision.

There is a need for a higher quality of care in the Fifth District of Cebu. While the Vicente
Sotto Hospital in Cebu City caters to the whole Province of Cebu, unfortunately, Cebuanos living
in far-flung areas have little or no access to higher level of health care. There is a need for higher
level facilities such as an ICU for critically ill patients and specialist doctors for gynecology and
pediatric services, which can be availed of by going to a Level II or III Hospital.
Considering the need to expedite the upgrading of the Cebu Provincial Hospital in Danao City that will serve the current and immediate future health care needs of the Province of Cebu, it is in the public interest that this measure be approved immediately.

Hence, approval of this Bill is earnestly requested.
