House Bill No. **8676**

__________

EXPLANATORY NOTE

It is the policy of the State to protect and promote the right of all citizens to quality education at all levels and shall take appropriate steps to make such education accessible to all. As such, it is incumbent upon the government to create programs in support of this policy.

With the prevailing state of the economy however, and the persistence of poverty in the country, many of our youth are unable to access formal education. Education being an important factor in improving productivity, and hence, the economy, we are caught in a chicken-and-egg paradox.

The recent pandemic has amplified this conundrum as it posed greater difficulties both in our educational systems and the economic situation.

This bill seeks to address this concern by institutionalizing government support for out-of-school youth through alternative learning systems and strengthening technical/vocational education programs to allow them reasonable access to livelihood.

In hopes of furthering the nation’s economic recovery, passage of this bill is earnestly sought.
