EXPLANATORY NOTE

The right to vote is embodied in three instruments, namely, the Universal Declaration of Human Rights (UDHR); the International Covenant on Civil and Political Rights; and in the 1987 Philippine Constitution. The 1987 Constitution provides that, “Suffrage may be exercised by all citizens of the Philippines not otherwise disqualified by law, who are at least eighteen years of age, and who shall have resided in the Philippines for at least one year and in the place wherein they propose to vote for at least six months immediately preceding the election. No literacy, property, or other substantive requirement shall be imposed on the exercise of suffrage.”

Suffrage is one of the most basic means of political participation for the public. It exists not only to put individuals into power but also as a means of the public to affirm its government and the political system. Voting enables citizens to legitimize governments to adopt and develop policies for their benefit. It allows people to choose how to shape the nation’s future through the types of leaders they select.

Considering this, it is essential that the citizens are adequately prepared to make responsible and informed choices about the leaders they will elect. To this end, this measure seeks to integrate voter education into the curricula of junior and senior high school students in both public and private educational institutions. The syllabus for voter education shall include three thematic areas: suffrage, electoral system and process, and educated voting. It shall also include other additional topics and studies relevant to the above-mentioned thematic areas. This is proposed with the goal of empowering the youth to actively and responsibly participate in the political process through the elections.

On behalf of the people of Parañaque City’s Second District, and for the common good of the Filipino people, the approval of the said measure is earnestly sought.
