AN ACT ESTABLISHING AND ORGANIZING THE PHILIPPINE ELECTRONIC SPORTS COMMISSION AND APPROPRIATING FUNDS THEREFOR

EXPLANATORY NOTE

Online gaming is on the rise in the Philippines, owing to the country’s developing internet accessibility. More than half of the population of the Philippines were internet users, and among those between 18 to 24 years old, this was closer to 90 percent. It was no surprise that the online gaming population was dominated by the same age group.

Esports has become increasingly popular for online gamers to not only play for entertainment but for competition as well. In the 2019 Southeast Asian Games, Filipino players won five medals in the esports competition. This developing industry has drawn a revenue of 24 million U.S. dollars in the first half of the year for mobile esports in the Philippines.

This bill seeks to establish the Philippine Esports Commission as the governing body to organize, oversee and monitor esports in the country. Further, this measure seeks to legitimate esports, assist our student players by providing support programs, establish infrastructure for the culture and industry of esports.

Approval of this bill is earnestly sought.
