AN ACT
TO PROTECT THE RIGHT OF THE PEOPLE TO INFORMATION ABOUT
SEXUAL AND REPRODUCTIVE HEALTH CARE SERVICES

EXPLANATORY NOTE

In 2012, Republic Act No. 10354 otherwise known as the Responsible Parenthood and Reproductive Health Act was enacted into law. This important legislation guarantees universal access to methods on contraception, fertility control, sexual education, and maternal care.

However, almost a decade after its enactment, the country continues to face rising cases of teenage pregnancies and sexually-transmitted infections like human immunodeficiency virus (HIV) due to the deficiency in the dissemination of information regarding sexual and reproductive health and rights.

This bill seeks to uphold the sexual and reproductive health and rights of Filipinos and to provide better access to quality, accessible, and reliable information that would empower choices for reproductive health care services including but not limited to adolescence, family planning, maternal and newborn health, trauma and gender-based violence, and sexually transmitted infections.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
