EXPLANATORY NOTE

Libraries play a fundamental role in creating opportunities for learning, support literacy and education. Libraries offer countless learning opportunities that can fuel economic, social and cultural development. The reality however is that the maintenance and operation of public libraries is costly, especially for public educational institutions and local government units. As such, there is the need for the State to introduce measures that would allow for the updating and improved operations of these public libraries.

This measure seeks to fully utilize the efficiency of the private sector in constructing and maintaining these libraries. Private entities shall be encouraged to sign memoranda of agreement (MOA) with the concerned authorities to construct and maintain libraries. In exchange, all expenses made for the construction of libraries and provision of educational materials and equipment under this Act shall be exempt from the donor's tax. Furthermore, the adopting company or enterprise shall be entitled to have its name published beneath the name of the school after words indicating that the school is under the "Adopt-a-Library Program".

On behalf of the people of Parañaque City’s Second District, and for the common good of the Filipino people, the approval of the said measure is earnestly sought.
