The COVID-19 pandemic changed a lot of the normal processes that we have been used to. It showed us that we need to change some of our procedures and adapt to the current situation.

One change that should happen is to allow for online voter registration. It is a fact that many Filipinos, even before the pandemic, hesitate to register as voters because of the time it takes to complete the registration process and the lines that they have to endure.

We need to provide a more convenient and efficient voter registration system and ensure a continuing system of voter registration by adopting online registration of voters as an option.

This bill seeks to amend Section 8 of RA 8189 by adding as an option to the existing personal mode of voter registration, the electronic or online mode of registration through the official website as designated by the Commission on Elections. Online registration shall not be limited to the filing of an application to register but to all processes under the existing law such as reactivation of voter registration records, transfer of registration records and correction in the entries of voter’s registration records.

In view of the foregoing, immediate approval of this measure is earnestly requested.
