EXPLANATORY NOTE

“A child who learns about traffic rules and road discipline will grow up to be a law-abiding citizen. The habit of obeying traffic rules teaches a person a sense of responsibility, empathy for others, and respecting the other person’s rights”

— The Hindu¹

As traffic on our roads become heavier and increasingly busy, it is important to inculcate in children during their formative years the importance of proper road use. This is extremely essential in order to ensure safety in children and avoid any accidents by reason of lack of awareness. As can be gleaned in the above-cited quote from “The Hindu”, proper road use education goes a long way and will even hone a child into becoming a valuable member of the society.

This Bill intends to incorporate in the curriculum of elementary schools a subject particularly teaching its students on proper road use such as, but not limited to passenger safety, driving safety, and understanding traffic signages. Through the inclusion of proper road use education in the curriculum, the Filipino youth will become warier and more cautious of the proper road use, thereby helping them with their safety. Moreover, this addition in the curriculum will be able to inculcate in the Filipino youth extraordinary discipline that they will be able to carry as they flourish and face day-to-day challenges.
