AN ACT
EXEMPTING THE DONATION OF VACCINES, CRITICAL PRODUCTS, ESSENTIAL GOODS, EQUIPMENT OR SUPPLIES NEEDED TO CONTAIN AND MITIGATE COVID-19 FROM DONOR’S TAX AND FOR OTHER PURPOSES

COVID-19 vaccination is considered the best chance we have to transition out of the pandemic. It is widely believed by our scientist that natural herd immunity would not have been sufficient to return to normal. This is echoed by the World Health Organization.

However, the Philippines is still barely rolling out its immunization program against COVID-19. There remains a need for an effective delivery of vaccines including needles, storage equipment and other instruments.

This proposed measure ensures an easier acceptance of vaccines, including equally essential equipment, supplies and other goods necessary for its administration. The bill seeks to exempt these donations from donor's tax for a definite period, subject to certain conditions.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
