Salt is integral to human life in general. Aside from its essential nutrient value when consumed moderately, it is also one of the oldest and most ubiquitous food seasoning and is also an important element in food preservation.

Knowing the importance of salt in the human diet and its viability as an economic industry, one would think that in the Philippines, with a coastline of 36,289 km, where majority of salt production can be derived, salt-making would be a lucrative undertaking. The reality of the situation, however, presents a dire circumstance; one that threatens the very existence of the salt farming industry if the government does nothing to intervene.

In the 1990s, the salt-making industry was once a vibrant undertaking in the Philippines. The provinces of Bulacan, Cavite, Mindoro, and Pangasinan once produced 85% of the country’s annual salt requirement. However, the industry has long since been crippled by climate change, urbanization, and the lack of modern salt-making techniques and technology. Salt flats or beds had been converted to more profitable industries such as fishponds, residential, or commercial properties. As a consequence, the country now only produces 20% of Filipinos’ annual salt requirements and we have come to rely on importing the remaining 80% from big salt-producing countries like Australia and China. Moreover, as cheap imports flooded the market, small-scale salt makers found it increasingly difficult to keep up with the competition and had therefore decided to give up salt making as a profession.

These developments simply cannot be. Salt-making is not only a potentially lucrative business, but more importantly a way of life for many Filipinos. It is part of our proud heritage and tradition. In this representation’s home province of Pangasinan, the etymology of the province’s name literally means “place of salt” or “place of salt-making.” Famous local products such as bagoong or alamang, longganisa, cornik, among others are reliant on cheap, but good quality salt. Salt farms are also becoming a tourist boon in Pangasinan, therefore providing a learning opportunity for people interested in learning the art of salt-making. Suffice it to say that it is an integral part of Pangasinan culture.

As such, to save this ailing industry and hopefully transform it to a major industrial powerhouse, this bill is proposed. Under this Act, Advanced Salt Innovation (ASIN) Centers shall
initially be established in the major salt-producing provinces of Bulacan, Cavite, Mindoro, and Pangasinan with the prospect of establishing more should the need arise. These ASIN Centers will be responsible for reviving, promoting, developing, and preserving the salt-making industry in the country through various activities, programs, and projects intended to train salt makers in the modern techniques of salt-making; transfer vital technologies in the pursuit of the same; and conduct researches integral to improving salt production in the country. The ultimate goal of this Act is twofold, first is to achieve self-sufficiency in meeting the country’s salt requirements and second, to develop an export-oriented salt-making industry.

Finally, aware of the need for a more integrated governmental approach to any government undertaking, the ASIN centers under the supervision and control of the Department of Agriculture shall coordinate with the appropriate government agencies to foster market linkages, both domestic and international; to develop salt-making techniques capable of withstanding the effects of climate change; to ensure that salt-making is environmentally safe and sustainable; and to promote the industry via farm tourism.

For the reasons abovementioned, the immediate approval of this bill is earnestly sought.

Rep. Ramon V. Guico III
AN ACT
ESTABLISHING THE PHILIPPINE ADVANCED SALT INNOVATION (ASIN) CENTER TO PROMOTE AND ENHANCE THE SALT-MAKING INDUSTRY IN THE PHILIPPINES AND FOR OTHER PURPOSES

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled,

SECTION 1. Short Title. — This act shall be known as the “Advanced Salt Innovation Act.”

SEC. 2. Declaration of Policy. — The Constitution provides that the State shall develop a self-reliant and independent national economy effectively controlled by Filipinos. It also provides that the State shall support indigenous, appropriate, and self-reliant scientific and technological capabilities, and their application to the country’s productive systems and national life. Towards this end, the State shall establish various programs to enhance, promote, and preserve the salt-making industry in the Philippines.

SEC. 3. Definition of Terms. — For the purposes of this Act, the following terms shall mean:

a. Philippine Advanced Salt Innovation Center (PAC) or ASIN Center shall refer to the Advanced Salt Innovation (ASIN) Centers in the University of Pangasinan in Lingayen, Pangasinan; Bulacan State University in Malolos, Bulacan; Cavite State University in Indang, Cavite; and the Mindoro State College of Agriculture and Technology in Victoria, Oriental Mindoro among other prospective ASIN Centers that shall be established pursuant to the provisions of this Act.

b. Smallholder/s shall refer to salt makers producing salt from no more than five (5) hectares of salt beds/salt flats.

SEC. 4. Establishment of the Philippine ASIN Center (PAC). — There is hereby created a Philippine Advanced Salt Innovation (ASIN) Center, hereinafter referred to as PAC, which shall be under the supervision and control of the Department of Agriculture (DA).
SEC. 5. **Powers and Functions of the PAC.** – The PAC shall have the following powers and functions:

a. Enhance, promote, and preserve the salt-making industry with the goal of achieving self-sufficiency with respect to the country’s annual salt requirements and exportation of the same;

b. Enable salt farmers, particularly smallholders to avail themselves of state-of-the-art salt-making equipment and technologies through an organized salt-making innovation program;

c. Undertake training programs for salt makers, particularly smallholders, designed to develop their capacities to undertake modern salt-making techniques and operate modern salt-making equipment and technology.

d. Conduct research activities in all disciplines that lead to the improvement of salt-making in the country;

e. Encourage coastal local government units to develop their own local salt-making industries and contribute to the goal of meeting the country’s annual salt requirements; and

f. Enter into memoranda of agreement and received donations through the Department of Agriculture from local and foreign sources. Upon the recommendation of the PAC Advisory Board, the individual ASIN centers may enter into agreements directly with funding agencies through their respective board of regents or head of agency.

SEC. 6. **Priorities.** – The PAC shall give priority to the following activities:

a. Sustained increase in domestic salt production three (3) years after the effectivity of this Act;

b. Development of effective salt-making strategies and techniques;

c. Socio-economic researches to ensure the viability and acceptance of technology by salt makers;

d. Development of appropriate technologies that are cost-effective, simple, and practical;

e. Enhancing salt farming capabilities of existing and potentially major salt-making regions;

f. Coordinate with the Department of Trade and Industry (DTI) and other appropriate government agencies, to foster linkages between domestic and international markets and salt makers to promote trade;

g. Coordinate with the Department of Science and Technology to develop innovative salt-making techniques and technologies with emphasis on preventing climate change from adversely affecting salt production;

h. Coordinate with the Department of Tourism to include and promote salt farms in the farm tourism program of the department; and

i. Coordinate with the Department of Environment and Natural Resources to promote and develop a sustainable salt-making strategy.
SEC. 7. **PAC Advisory Board.** – The PAC Advisory Board shall be composed of the:

a. Secretary of Agriculture or his duly authorized representative, as Chairperson;
b. Undersecretary for Agri-Industrialization and for Fisheries, as Vice Chairperson;
c. Secretary of Science and Technology or his duly authorized representative;
d. Secretary of Trade and Industry or his duly authorized representative;
e. Secretary of Environment and Natural Resources or his duly authorized representative.
f. Presidents of the Pangasinan State University, Bulacan State University, Cavite State University, and Mindoro State College of Agriculture and Technology and the presidents of the state colleges or universities where an ASIN center may be established pursuant to this Act;
g. Executive Director of the Philippine Council for Agriculture and Fisheries;
h. Executive Director of the PAC; and
i. Salt farmers’ representative to be appointed by the Board.

SEC. 8. **Functions of the PAC Advisory Board.** – The PAC Advisory Board shall perform the following functions:

a. Formulate policies, programs, and projects for the development of the salt-making industry in the country;
b. Review and recommend the annual budget of the PAC;
c. Evaluate the implementation, efficiency, and effectiveness of the program and projects of the PAC; and
d. Recommend the establishment or abolition of ASIN centers as may be deemed necessary.

SEC. 9. **Executive Director of the PAC.** – The Executive Director of the PAC shall be appointed by the Secretary of Agriculture. The Executive Director of the PAC shall perform the following functions:

a. Oversee the implementation of the policies, programs, and projects of the PAC;
b. Assist the PAC Advisory Board in the review, evaluation, and monitoring of the ASIN program; and
c. Perform such other functions as may be assigned by the PAC Board.

SEC. 10. **Appointment of Directors or Project Leaders of Other ASIN Centers.** – The Directors or Project Leaders of the ASIN centers shall be appointed by the respective board of regents or head of agency.

SEC. 11. **Functions of the Directors or Project Leaders of Other ASIN Centers.** - Subject to the policies of the PAC, the Directors or Project Leaders of other ASIN centers shall perform the following functions:
a. Administer the policies, program and projects of the PAC in their respective centers;

b. Recommend the creation of divisions and sections including the staffing pattern of the centers;

c. Prepare the budget of their centers;

d. Approve the expenditures of their respective budgets;

e. Recommend to their respective head of agency the appointment of personnel or consultants;

f. Recommend policies, programs and projects to the Executive Director of the PAC; and

g. Perform such other functions as may be assigned by the Executive Director of the PAC.

SEC. 12. Implementation and Coordination of the Program. — The PAC Advisory Board through the Executive Director shall coordinate, monitor and evaluate the implementation of the ASIN program. It shall identify, through the Directors of ASIN centers and Project Leaders from the various implementing stations, the programs and projects in the areas of production, processing, and marketing of salt. It shall formulate strategies relative to increasing annual national salt production. The centers shall be located in Pangasinan State University in Lingayen, Pangasinan; Bulacan State University in Malolos, Bulacan; Cavite State University in Indang, Cavite; and the Mindoro State College of Agriculture and Technology in Victoria, Oriental Mindoro. These centers shall specialize in the development of salt farming strategies, techniques, and requisite technologies to improve salt production with the goal of attaining self-sufficiency.

SEC. 13. Salt Farmers’ Participation. — The salt farmer-participants shall be encouraged to establish strong farmers associations or cooperatives to serve as focal point for government assistance in the revival, development, and dissemination of technology on salt-farming.

SEC. 14. Participation of the Department of Agriculture and Local Government Units (LGUs). — The ASIN centers, the regional and provincial offices of the Department of Agriculture and the local government units where salt farming is viable shall implement a salt farming development program within their respective areas in accordance with the national policy and program of the PAC.

SEC. 15. Use of Funds. — Not more than thirty percent (30%) of funds allocated under this Act and in subsequent annual appropriations shall be used for personal services, and maintenance and operating expenses, fifteen percent (15%) for research and development, and fifty-five percent (55%) for salt farmers’ assistance, training, technology transfers, and other such activities, programs, and projects necessary to improve the salt industry pursuant to the provisions of this Act.

SEC. 16. Annual Report. — The PAC submit an annual report to the Office of the President, the Senate, and the House of Representatives indicating among others recommendations to further improve salt production.
SEC. 17. Transfer of Salt Farming Programs to the PAC. — Upon approval of this Act, any existing salt farming programs and projects implemented by various agencies shall be transferred to the PAC.

SEC. 18. Sunset Review. — Within six (6) years after the effectivity of this Act, or as the need arises, the appropriate committees from the Senate and the House of Representatives shall jointly conduct a sunset review. This review shall take into account the accomplishments and impact of this Act, as well as the performance and organizational structure of its implementing agencies, for purposes of determining remedial legislation.

SEC. 19. Appropriations. — The amount necessary to carry out the provisions of this Act shall be included in the General Appropriations Act of the year following its enactment into law and thereafter.

SEC. 20. Repealing Clause. — All laws, executive orders, rules and regulations, or parts thereof which are inconsistent with this Act are hereby repealed or modified accordingly: Provided; however, That nothing in this Act shall amend, modify or repeal the provisions of Republic Act No. 7160, otherwise known as the Local Government Code.

SEC. 21. Separability Clause. — If any part or provision of this Act is declared invalid or unconstitutional, the other parts not otherwise affected shall remain in full effect and force.

SEC. 22. Effectivity. — This Act shall take effect fifteen (15) days from the date of its publication in the Official Gazette or in at least two (2) newspapers of general circulation.

Approved,
