RESOLUTION DIRECTING THE COMMITTEE ON HEALTH AND OTHER
APPROPRIATE COMMITTEES TO CONDUCT AN INQUIRY IN AID OF
LEGISLATION, ON THE ACT OF THE FDA OF DISALLOWING THE PRODUCTION
OF IVERMECTIN FOR HUMAN CONSUMPTION AS A DRUG FOR PREVENTION
AND CURE OF COVID-19 WITH THE END IN VIEW OF ENACTING REGULATIONS
THAT WILL ENSURE THAT THE FDA AND DOH WILL CONSIDER ALL POSSIBLE
CURES FOR COVID-19

WHEREAS COVID-19 cases in the Philippines have been reaching several all-time highs almost
daily, as we have been seeing 8,000 new cases in a single day, while hospitals have been
announcing full capacity status;

WHEREAS Ivermectin is an anti-parasitic drug made for and intended for use by animals;

WHEREAS the same drug has been shown to reduce the effects of COVID 19 in infected patients,
when used with vitamins and supplements and has been the subject of several successful clinical
trials around the world;

WHEREAS Ivermectin is more cost effective compared to Remdesivir, the current drug being used
to treat COVID19-infected patients costs Php 28,000.00 per vial and must be administered twice
daily until such time that the patient is discharged and Ivermectin costs around 35 pesos, to be
administered once daily for three days – totaling to just a little over 100 pesos;

WHEREAS Dr. Allan Landruto found success in treating COVID infected patients with Ivermectin;

WHEREAS the FDA has ordered pharmaceutical companies to halt production of Ivermectin and
for Dr. Landruto to stop treating COVID 19 patients with Ivermectin;

WHEREAS Ivermectin has shown so much potential and 22% of the world, including India, South
Africa and South America, is already utilizing the same as COVID treatment and prevention;

WHEREAS the FLCCC Alliance Ivermectin manuscript prepared by United States Dr. Pierre Kory,
President of the Frontline COVID-19 Critical Care Alliance (FLCCC), Alliance, has been accepted
for publication and concludes that Ivermectin should be immediately and globally deployed in
prevention and treatment of COVID-19;

WHEREAS Ivermectin as treatment and prevention for COVID 19 should be looked into and
eventually allowed by the FDA as DOH, and that production of the same drug should be allowed
for human consumption;

NOW THEREFORE, BE IT RESOLVED AS IT IS HEREBY RESOLVED, by the House of
Representatives that the Committee on Health and other appropriate committees to conduct an
inquiry, in aid of legislation, on the act of the FDA of disallowing the production of Ivermectin for
human consumption as a drug for prevention and cure of COVID-19 with the end in view of enacting regulations that will ensure that the FDA and DOH will consider all possible cures for COVID-19.
