HOUSE BILL NO. 178

EXPLANATORY NOTE

Section 13, Article XII (National Economy and Patrimony) of the 1987 Constitution of the Philippines provides that “The State shall pursue a trade policy that serves the general welfare and utilizes all forms and arrangements of exchange on the basis of equality and reciprocity”. Moreover, Republic Act No. 10863, otherwise known as the “Customs Modernization and Tariff Act”, declares as a State policy the protection and enhancement of government revenue and the institution of fair and transparent customs and tariff management to efficiently facilitate international trade, prevent and curtail any form of customs fraud and illegal acts, and modernize customs and tariff administration.

Despite the procedures and requirements laid down by the law, illegal importation activities still abound in the Philippine ports. Many smuggled and prohibited items get through customs scrutiny using spurious commercial and shipping documents. The fraud is perpetuated by the fact that cargo manifests of vessels from a foreign port, airway bills and bills of lading do not indicate the value of the goods and articles being imported. Actual purchase and customs fees that need to be collected are not required to be declared in these commercial documents; thus, giving the importer and consignee the opportunity to misdeclare, undervalue and misclassify the goods and articles.

This bill seeks to curb these illicit trading practices. By requiring common carrier to declare the value of the goods and articles in the cargo manifest of vessels from a foreign port, bill of lading and airway bill as it appears in the commercial invoice and letters of credit, authorities can have adequate basis in assessing and collecting correct taxes, duties, and charges.
This bill also prohibits making any changes in the electronic cargo manifest already transmitted electronically to the Bureau of Customs computer system. To ensure consistency of commercial documents transmitted and presented to Philippine authorities, the Pier Inspection Division or the Aircraft Operations Division, and the District Collector of the Port, as the case may be, are tasked to reconcile the hard copy of the cargo manifest with the electronic cargo manifest of a vessel from a foreign port.

These proposed measures are expected to significantly deter the use of commercial and shipping documents in smuggling and illegal importation activities.

In view of the foregoing immediate passage of this bill is earnestly requested.
