**EXPLANATORY NOTE**

Teaching is considered the noblest profession because of the selfless sacrifices of our teachers and educators in the delivery of quality education and ensuring that each student has the necessary knowledge to succeed in their chosen careers. It then follows that retired teachers, having spent the majority of their lives in this noble profession, have contributed greatly in nation-building.

In recognition of their sacrifices and dedication in the field of providing quality education, our teachers deserve to be granted certain benefits for the many years they have spent serving the nation.

This bill seeks to recognize the important role of our retired teacher in nation-building and providing quality education in the country by providing priority in the availment of government services and public utilities.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
