HOUSE BILL NO. 5627

Introduced by HON. LUIS RAYMUND "LRAY" F. VILLAFUERTE, JR.

EXPLANATORY NOTE

Article II of the 1987 Constitution provides:

Section 17. The State shall give priority to education, science and technology, arts, culture, and sports to foster patriotism and nationalism, accelerate social progress, and promote total human liberation and development.

Technology in schools is a central component of preparing students for the 21st century. Equipping schools with technology is no longer a luxury, it is a necessity.

Technology in the classroom improves students' mastery of basic skills, test scores, writing, and engagement in school. With these gains come decreases in dropout rates and decreases in attendance and discipline problems.

Not enough students have access to computers, distance learning, and telecommunications technologies. In fact, many public schools do not have any computers, while few have older models that do not have the power to perform advanced functions, such as those involving video and the Internet.

The purpose of this bill is to establish educational technology clearinghouses to facilitate the donation of surplus equipment and technology to schools and libraries from governmental agencies, businesses, and other private entities.

In view of the foregoing, the approval of this bill is earnestly sought.

LUIS RAYMUND "LRAY" F. VILLAFUERTE, JR.
