6 OPERATE AND MAINTAIN TELECOMMUNICATIONS SYSTEMS THROUGHOUT THE
7 PHILIPPINES”

Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. Nature and Scope of Franchise. - Subject to the provisions of the
Constitution and applicable laws, rules and regulations, the franchise granted to Polaris
Telecommunications, Inc., presently known as Radius Telecoms, Inc., hereunder referred
as the grantee, its successor or assignees, under Republic Act No. 8955, to construct,
install, establish, operate, and maintain for commercial purposes and in the public
interest, the business of providing basic and enhanced telecommunications services in
and between provinces, cities, and municipalities in the Philippines and between the
Philippines and other countries and territories, including mobile, cellular, and wired or
wireless telecommunications systems, fiber optics, multi-channel distribution systems,
local multipoint distribution system, satellite transmit and receive systems, and other
telecommunications systems and their value-added services such as the transmission of
voice, data, facsimile, control signals, audio and video, information services, and all other
telecommunications systems technologies as are at present available or will be made
available through technological advances and innovations in the future; or to construct,
acquire, lease, and operate, or manage transmitting and receiving stations, and switching
stations, both for local and international services, lines, cables or systems, and associated
equipment as are convenient or essential to efficiently carry out the purposes of this
franchise, is hereby renewed for another twenty-five (25) years.

SEC. 2. Manner of Operation of Stations or Facilities. – The stations or facilities
of the grantee shall be constructed and operated in a manner as will, at most, result only
in the minimum interference on the wavelengths or frequencies of existing stations or
other stations which may be established by law, without in any way diminishing its own
right to use its assigned wavelengths or frequencies and the quality of transmission or
reception thereon as should maximize rendition of the grantee’s services or the availability
thereof.

SEC. 3. Authority of the National Telecommunications Commission. – The
grantee shall secure from the National Telecommunications Commission (NTC) a
Certificate of Public Convenience and Necessity or the appropriate permits and licenses
for the construction, installation, and operation of its telecommunications systems or
facilities. In issuing the certificate, the NTC shall have the power to regulate and impose
such conditions relative to the construction, operation, maintenance, or service level of
the telecommunications systems or facilities. Such certificate shall state the areas
covered and the date the grantee shall commence the service. The grantee shall not use
any frequency in the radio spectrum without authorization from the NTC. The NTC,
however, shall not unreasonably withhold or delay the grant of such authority, permit or
license.

In case of any violation of the provisions of this franchise, the NTC shall have the
authority to revoke or suspend, after due process, the permits or licenses it issued
pursuant to the franchise. The NTC may recommend to Congress the revocation of the
franchise for any violation of the provisions of this franchise.

SEC. 4. Excavation and Restoration Works. – For the purposes of erecting and
maintaining poles or other supports for wires or other conductors, and for laying and
maintaining of underground wires, cables, or other conductors, it shall be lawful for the
grantee, its successors or assignees, with the prior approval of the Department of Public
Works and Highways (DPWH) or the local government unit (LGU) concerned, as may be
appropriate, to make excavations or lay conduits in any of the public places, roads,
highways, streets, lanes, alleys, avenues, sidewalks, or bridges of the province, cities, or
municipalities: Provided, however, That a public place, road, highway, street, lane, alley,
avenue, sidewalk, or bridge disturbed, altered, or changed by reason of erection of poles
or other supports or the underground laying of wires, other conductors or conduits, shall
be repaired and replaced in workmanlike manner by the grantee, its successors or assignees, in accordance with the standards set by the DPWH or the LGU concerned. Should the grantee, its successors or assignees, after the ten (10)-day notice from the said authority, fail, refuse, or neglect to repair or replace any part of public place, road, highway, street, lane, alley, avenue, sidewalk, or bridge altered, changed or disturbed by the grantee, its successors or assignees, then the DPWH or the LGU concerned shall have the right to have the same repaired and placed in good order and condition, and charge the grantee, its successors or assignees at double the amount of the costs and expenses for such repair or replacement.

SEC. 5. Responsibility to the Public. - The grantee shall conform to the ethics of honest enterprise and not use its stations or facilities for obscene or indecent transmission, or for dissemination of deliberately false information, or willful misrepresentation, or assist in subversive or treasonable acts.

The grantee shall operate and maintain all its stations, lines, cables, systems, and equipment for the transmission and reception of messages, signals, and pulses in a satisfactory manner at all times, and as far as economical and practicable, modify, improve, or change such stations, lines, cables, systems, and equipment to keep abreast with the advances in science and technology.

The grantee shall improve and extend its services in areas not yet served, and in hazard- and typhoon-prone areas that shall be determined by the National Disaster Risk Reduction and Management Council, or its legal successor, in coordination with the NTC.

The grantee shall also improve and upgrade its equipment, facilities, and services, in order to ensure effective compliance with the objectives of Republic Act No. 10639 or the "Free Mobile Disaster Alerts Act".

SEC. 6. Rates for Services. – The charges and rates for telecommunications services of the grantee, except the rates and charges on those that may hereafter be declared or considered as nonregulated services, whether flat rates or measured rates or variations thereof, shall be subject to the approval of the NTC or its legal successor. The rates to be charged by the grantee shall be unbundled, separable, and distinct among the services offered and shall be determined in such a manner that regulated services do not subsidize the unregulated ones.

SEC. 7. Right of Government. – The radio spectrum is a finite resource that is part of the national patrimony and the use thereof is a privilege conferred upon the grantee by the State and may be withdrawn any time after due process.
A special right is hereby reserved to the President of the Philippines, in times of war, rebellion, public peril, calamity, emergency, disaster, or disturbance of peace and order: to temporarily take over and operate the stations, transmitters, facilities, or equipment of the grantee; to temporarily suspend the operation of any station, transmitter, facility, or equipment in the interest of public safety, security, and public welfare; or to authorize the temporary use and operation thereof by any agency of the government, upon due compensation to the grantee for the use of the stations, transmitters, facilities, or equipment during the period when these shall be so operated.

SEC. 8. Term of Franchise. – This franchise shall be in effect for a period of twenty-five (25) years from the date of the effectivity of this Act, unless sooner cancelled. This franchise shall be deemed ipso facto revoked in the event the grantee fails to operate continuously for two (2) years.

SEC. 9. Renewal or Extension of Franchise. – The grantee shall apply for the renewal or extension of its franchise three (3) years before its expiration which shall be reckoned from fifteen (15) days after the publication of the franchise in the Official Gazette or in a newspaper of general circulation.

SEC. 10. Right of Interconnection. – The grantee is hereby authorized to connect or demand connection of its telecommunications systems to other telecommunications systems installed, operated, and maintained by any other duly authorized person or entity in the Philippines for the purpose of providing extended and improved telecommunications services to the public, under the terms and conditions mutually agreed upon by the parties concerned. This right shall be subject to the review and modification of the NTC.

SEC. 11. Mobile Number Portability. – The grantee shall provide mobile number portability (MNP) and its implementing mechanism, including the required infrastructure and processes, and shall interconnect, directly or indirectly, with the infrastructure, facilities, systems, or equipment of other telecommunications franchise grantees. It shall not install network features, functions, or capabilities that will impede the implementation of a nationwide MNP system.

SEC. 12. Warranty in Favor of the National and Local Governments. - The grantee shall hold the national, provincial, city, and municipal governments of the Philippines free from all claims, liabilities, accounts, demands, or actions arising out of accidents causing injury to persons or damage to properties, during the construction or operation of the stations, transmitters, facilities, or equipment of the grantee.
SEC. 13. Sale, Lease, Transfer, Grant of Usufruct, or Assignment of Franchise. — The grantee shall not sell, lease, transfer, grant the usufruct of, nor assign this franchise or the rights and privileges acquired thereunder to any person, firm, company, corporation, or other commercial or legal entity, nor merge with any other corporation or entity, nor shall the controlling interest of the grantee be transferred, simultaneously or contemporaneously, to any person, firm, company, corporation, or entity without the prior approval of Congress. The grantee shall inform Congress, through the Office of the Speaker of the House of Representatives and the Office of the Senate President, of any sale, lease, transfer, grant of usufruct, or assignment of franchise or the rights and privileges acquired thereunder, or of the merger or transfer of the controlling interest of the grantee, within sixty (60) days after the completion of the said transaction. Failure to report to Congress such change of ownership shall render the franchise ipso facto revoked. Any person or entity to which this franchise is sold, transferred, or assigned shall be subject to the same conditions, terms, restrictions, and limitations of this Act.

SEC. 14. Dispersal of Ownership. - In accordance with the constitutional provision to encourage public participation in public utilities, the grantee shall offer to Filipino citizens at least thirty percent (30%) of its common stocks, or a higher percentage that may hereafter be provided by law, in any securities exchange in the Philippines within five (5) years from the effectivity of this Act: Provided, That in cases where public offer of shares is not applicable, other methods of encouraging public participation by citizens and corporations operating public utilities must be implemented. Noncompliance therewith shall render the franchise ipso facto revoked.

Sec. 15. Commitment to Provide and Promote the Creation of Employment Opportunities. — The grantee shall create employment opportunities and accept on-the-job trainees in the franchise operations: Provided, That priority shall be accorded to the residents of the place where the principal office of the grantee is located: Provided further, That the grantee shall ensure that at least sixty percent (60%) of its employees are regular employees and in no case shall the percentage of contractual, job order, or casual employees, and independent contractors combined, exceed forty percent (40%) of its total workforce: Provided, finally, That the grantee shall comply with the applicable labor standards and allowance entitlement under existing labor laws, rules and regulations and similar issuances.

The employment opportunities or jobs created shall be reflected in the General Information Sheet (GIS) to be submitted to Securities and Exchange Commission (SEC) annually. The annual report shall include an update on the commencement of activities, development, operation, and expansion of business; audited financial statements; latest GIS officially submitted to the SEC, if applicable; certification of the NTC on the status of its permits and operations; and an update on the dispersal of ownership undertaking, if applicable.

The reportorial compliance certificate issued by Congress shall be required before any application for permit or certificate is accepted by the NTC.

SEC. 17. Fine. – Failure of the grantee to submit the requisite annual report to Congress shall be penalized with a fine in the amount of One million pesos (P1,000,000.00) for each working day of noncompliance, the effectivity of which shall commence upon applicability with other telecommunications franchise grantees: Provided, That in the interim, the grantee shall be liable to pay the fine of Five hundred pesos (P500.00) per working day of noncompliance to the NTC. The fine shall be collected separately from the reportorial penalties imposed by the NTC, and it shall be remitted to the Bureau of the Treasury.
